

Lifelong Learning Priorities

1.	Putting the learner first
2.	Realising the benefits of education technology tools and techniques at all levels
3	Involving people, families in learning
4.	Organising the effective use of networks
5.	Restructuring educational infrastructures into a more holistic model
6.	Improving self-esteem and self-worth
7.	Transforming the examination system into a personal target-based system
8.	Inspiring Lifelong Learning Leaders
9.	Stimulating effective partnerships
10.	Activating 'Learning Communities' - infrastructures within which Lifelong Learning can grow
11.	Teaching high order skills in and out of schools
12.	Initiating more research into learning
13.,	Overcoming racism and xenophobia through a more international outlook
14.	Nurturing creative thinking

The initial letters describe the process - try putting them in your order of preference.
